#### A Cat, A Parrot and a bag of Seed

Put the Parrot in a cage and then put the bag of seed in the boat, put the bird cage on top of the seed, while holding the cat so it does go after the bird in the cage.

or

Put the Parrot on your shoulder and the cat in a cage and then put the bag of seed into the boat and put the cat on top of the bag of seed.

#### Sock in the Dark

You normal can see white so that would be the smallest number.

So now you have your first pair of sock, then you go and pick the other two, one from the three and one from the 5 assuming they are in the drawer in the order of color.

#### Predicting Finger

If you count on one hand starting with your thumb and then reverse from 1-10 you will stop on your thumb, the same will be for 1-100 and 1-1000.
